

Dreams  
make  
true !

Monica always would like to start a business but... she didn't know how to start.

One day a friend visited her.

Hi, how beautiful bracelet you have!

Oh, thanks. I've made it myself. It's a handmade jewelry.

You should start selling it. You could earn money.

You're right! I've been thinking about it for a long time.

Wow, have a look Vinted. You can sell there without taxes!

But I don't know where I could sell it.

Great idea! I'll do it.

Good luck!

The same day she created an account and started „production“

Monica has taken pics and published the add.

Next day Monica checked how many people ordered the products.

She was very sorry about it...

Some days later. Monica was waiting for customers and... wow! More and more people started visiting her place.

She started making necklaces too.

I'm so excited!

Some years later she started to run her own business.

I've always been enterprising and patient. It has paid off!

THE END
